JAMA Internal Medicine, a peer-reviewed, primary source journal, is widely recognized by physicians as the most relevant and practical journal in its specialty. Original studies present detail essential to sound clinical decision making, while JAMA Internal Medicine's reader-friendly features serve clinicians' depth of information on demand. Each issue offers a spectrum of articles relevant to everyday practice in general IM and subspecialty areas.

Thorough advertising interspersion boosts the visibility of your marketing messages. JAMA Internal Medicine is published 12 times per year, a frequency that helps to turn physicians' advertising awareness into interest and action.

The IM Product Continuity Program offers a way to maximize the value of your products' ad schedules, while the JAMA Specialty Network lets you target unique specialty audiences with more flexibility and value than ever before. For details, refer to information on page 6.
