JAMA Pediatrics is a peer-reviewed, primary source journal for pediatricians in office and hospital settings. *JAMA Pediatrics* provides a forum for dialogue on a range of clinical and humanistic issues relevant to the care of pediatric patients, from infancy through young adulthood. *JAMA Pediatrics* is an advocate for increased attention to adolescent health for pediatricians and other health professionals treating the unique medical and emotional needs of patients in this age group.

The core articles are original clinical studies and systemic and narrative reviews by experts. *JAMA Pediatrics* also includes editorials, practice commentaries, the very popular Picture of the Month quizzes, the Pediatric Forum, and Evidence-Based Journal Club. *JAMA Pediatrics* continues the lineage of the first US pediatrics journal.

The *JAMA* Specialty Network allows advertisers to target specialty audiences with more flexibility and value than ever before. For details, refer to information on page 6.
