*Decile 1 (10th percentile) represents the lowest readmission rate (better), while Decile 10 (100th percentile) represents the highest readmission rate (worse).

eFigure. Risk-standardized mortality and readmission rates for acute myocardial infarction, heart failure, and pneumonia in Veterans Affairs and non-Veterans Affairs hospitals, 2010-2013.

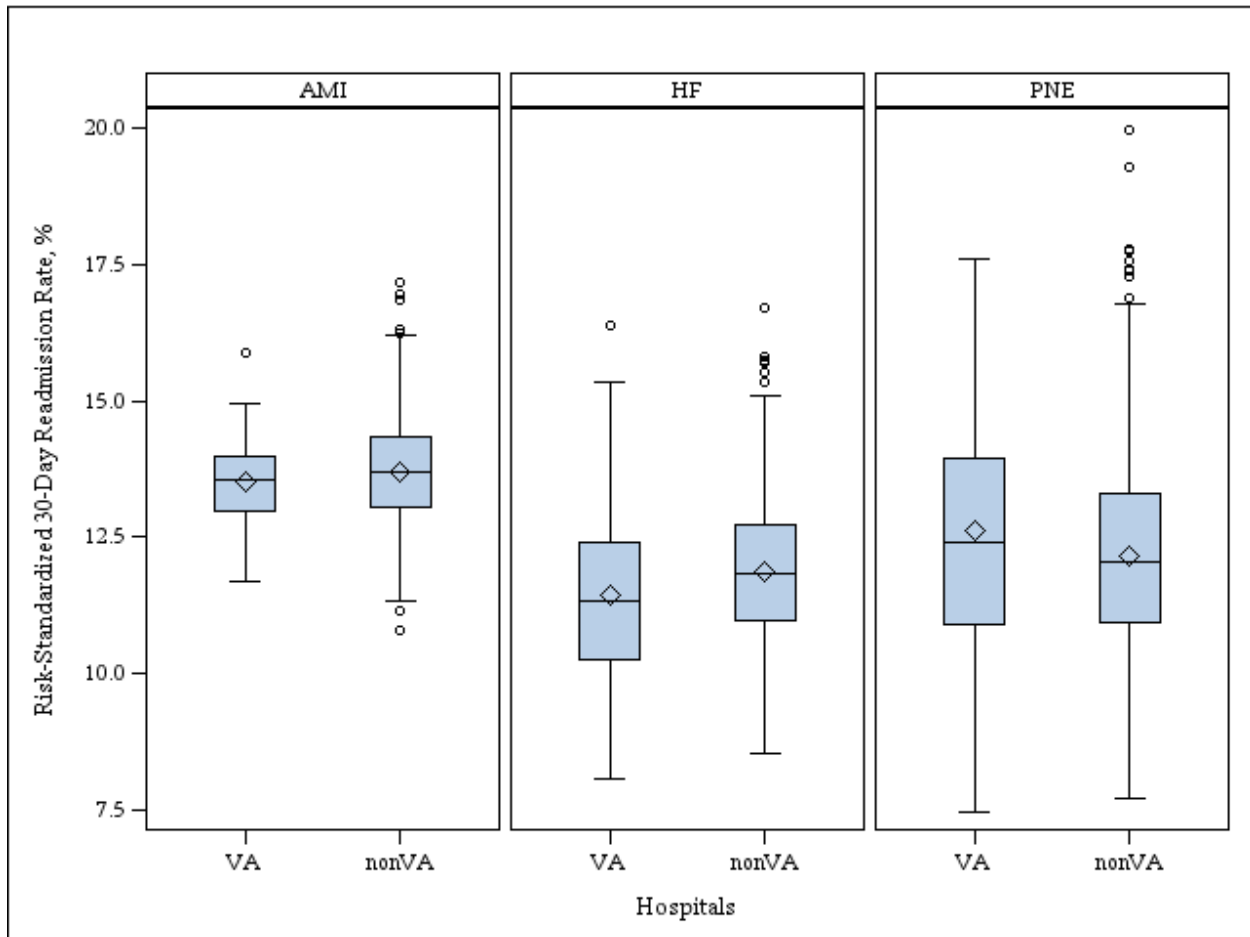

AMI: acute myocardial infarction, HF: heart failure, PNE: pneumonia. The horizontal line within the box is the median; the diamond symbol is the mean; the upper edge of the box is the third quartile; the lower edge of the box is the first quartile; the upper fence is the third quartile plus 1.5 times the interquartile range (IQR); the lower fence is the first quartile minus 1.5 times the interquartile range; the circle is the observation outside the fences.
