CORRECTION

Group Name Omitted: In the Original Investigation titled “Association Between Dispatch of Mobile Stroke Units and Functional Outcomes Among Patients With Acute Ischemic Stroke in Berlin,”1 published in the February 2, 2021, issue of JAMA, the group name was omitted. This article was corrected online.

Errors in Results: The Original Investigation titled “Effect of Dapagliflozin on Worsening Heart Failure and Cardiovascular Death in Patients With Heart Failure With and Without Diabetes,”4 published in the April 14, 2020, issue of JAMA, included errors in the Results section. This included labeling weight decline in those with diabetes as weight decline in those without diabetes at 8 months, citing reference 18 rather than reference 16 in footnote “b” in Table 2, and not indicating that the absolute difference in cardiovascular death or hospitalization for heart failure among patients with diabetes was presented as a percentage in Table 2. The text and table have been corrected. (All other information in the Results is correct and remains unchanged.)

Update of Image Credit and Word Choice: In the A Piece of My Mind article titled “The Cost of Technology,” published in the May 5, 2020, issue of JAMA, the credit line for the image was inadvertently omitted and the word “pre-eclampsia” in the second paragraph should have been “sclerosing cholangitis.” This article was corrected online.

Two Incomplete Author Names: In the Original Investigation entitled “Association of Rare CYP39A1 Variants With Exfoliation Syndrome Involving the Anterior Chamber of the Eye,”1 published in the February 23, 2021, issue of JAMA, there were 2 incomplete author names listed for the Genetics of Exfoliation Syndrome Partnership. At the end of the article, under “Authors for the Genetics of Exfoliation Syndrome Partnership,” the name “Andrés F. V. Cueto, MD, PhD” should have been “Andrés Fernández-Vega Cueto, MD, PhD” and “Luis F. V. Cueto, MD, PhD” should have been “Luis Fernández-Vega Cueto, MD, PhD.” The 2 names also should be revised under “Affiliations of Authors for the Genetics of Exfoliation Syndrome Partnership”: “A. F. V. Cueto” should have been “A. Fernández-Vega-Cueto” and “L. F. V. Cueto” should have been “L. Fernández-Vega-Cueto.” This article was corrected online.

Guidelines for Letters

Letters discussing a recent JAMA article should be submitted within 4 weeks of the article’s publication in print. Letters received after 4 weeks will rarely be considered. Letters should not exceed 400 words of text and 5 references and may have no more than 3 authors. Letters reporting original research should not exceed 600 words of text and 6 references and may have no more than 7 authors. They may include up to 2 tables or figures but online supplementary material is not allowed. All letters should include a word count. Letters must not duplicate other material published or submitted for publication. Letters not meeting these specifications are generally not considered. Letters being considered for publication ordinarily will be sent to the authors of the JAMA article, who will be given the opportunity to reply. Letters will be published at the discretion of the editors and are subject to abridgement and editing. Further instructions can be found at http://jamanetwork.com/journals/jama/pages/instructions-for-authors. A signed statement for authorship criteria and responsibility, financial disclosure, copyright transfer, and acknowledgment are required before publication. Letters should be submitted via the JAMA online submission and review system at https://manuscripts.jama.com. For technical assistance, please contact jama-letters@jamanetwork.org.
