Author Affiliations: Brigham and Women’s Hospital, Harvard Medical School, Boston, Massachusetts.

Corresponding Author: William B. Feldman, MD, DPhil, MPH, Division of Pulmonary and Critical Care Medicine, Brigham and Women’s Hospital, 75 Francis St, Boston, MA 02115 (wbfeldman@bwh.harvard.edu).

Conflict of Interest Disclosures: Dr Feldman reported receiving personal fees from Alosa Health, Aetion, and Blue Cross Blue Shield of Massachusetts. No other disclosures were reported.

Funding/Support: Dr Feldman receives grant support from the National Institutes of Health. Drs Feldman, Avorn, and Kesselheim receive grant support from Arnold Ventures.

Role of the Funder/Sponsor: The sponsors had no role in preparation, review, or approval of the manuscript or decision to submit the manuscript for publication.

CORRECTION

Nonauthor Collaborator Supplement: The Original Investigation titled “Effects of Liberal vs Restrictive Transfusion Thresholds on Survival and Neurocognitive Outcomes in Extremely Low-Birth-Weight Infants: The ETTNO Randomized Clinical Trial,” published in the August 11, 2020, issue of JAMA,1 has been corrected to include the nonauthor collaborator names in a supplement.

Data Errors in Table 1 of Blood Pressure Self-monitoring Trial: The Original Investigation titled “Effect of Self-monitoring of Blood Pressure on Diagnosis of Hypertension During Higher-Risk Pregnancy: The BUMP 1 Randomized Clinical Trial,” published May 3, 2022, was corrected to fix 2 data errors in Table 1: the denominator for race and ethnicity data in the usual care group and the percentage of patients with BMI ≥30 in the self-monitoring group. This article was corrected online.

Guidelines for Letters

Letters discussing a recent JAMA article should be submitted within 4 weeks of the article’s publication in print. Letters received after 4 weeks will rarely be considered. Letters should not exceed 400 words of text and 5 references and may have no more than 3 authors. Letters reporting original research should not exceed 600 words of text and 6 references and may have no more than 7 authors. They may include up to 2 tables or figures but online supplementary material is not allowed. All letters should include a word count. Letters must not duplicate other material published or submitted for publication. Letters not meeting these specifications are generally not considered. Letters being considered for publication ordinarily will be sent to the authors of the JAMA article, who will be given the opportunity to reply. Letters will be published at the discretion of the editors and are subject to abridgement and editing. Further instructions can be found at http://jamanetwork.com/journals/jama/pages/instructions-for-authors. A signed statement for authorship criteria and responsibility, financial disclosure, copyright transfer, and acknowledgment are required before publication. Letters should be submitted via the JAMA online submission and review system at https://manuscripts.jama.com. For technical assistance, please contact jama-letters@jamanetwork.org.
