Letters discussing a recent JAMA article should be submitted within 4 weeks of the article's publication in print. Letters received after 4 weeks will rarely be considered. Letters should not exceed 400 words of text and 5 references and may have no more than 3 authors. Letters reporting original research should not exceed 600 words of text and 6 references and may have no more than 7 authors. They may include up to 2 tables or figures but online supplementary material is not allowed. All letters should include a word count. Letters must not duplicate other material published or submitted for publication. Letters not meeting these specifications are generally not considered. Letters being considered for publication ordinarily will be sent to the authors of the JAMA article, who will be given the opportunity to reply. Letters will be published at the discretion of the editors and are subject to abridgement and editing. Further instructions can be found at http://jamanetwork.com/journals/jama/pages/instructions-for-authors. A signed statement for authorship criteria and responsibility, financial disclosure, copyright transfer, and acknowledgment are required before publication. CORRECTION

Wording Error in Patient Page: In the JAMA Patient Page titled “Statins for the Prevention of Cardiovascular Disease,” published in the August 23/30, 2022, issue of JAMA,1 an error in wording occurred. In the fifth paragraph of text, the parenthetical listing of CVD risk factors should have read “(dyslipidemia, high blood pressure, diabetes, and smoking).” This article was corrected online.
