CORRECTION

Errors in Table 3: In the Original Investigation titled “Sex Differences in Procedural Outcomes Among Patients Undergoing Left Atrial Appendage Occlusion: Insights From the NCDR LAAO Registry,”1 published online August 11, 2021, in JAMA Cardiology, there were errors in Table 3. Some of the crude numbers of the discharge prescription variations were incorrectly switched between women and men in the second and third columns of Table 3. This does not affect the wording in the text, the odds ratios calculated, or conclusions. This article was corrected online.
