Correction
Errors in Abstract, Introduction, and Methods

In the Original Investigation titled "Likelihood of Lung Cancer Screening by Poor Health Status and Race and Ethnicity in US Adults, 2017 to 2020," published March 31, 2022, there were errors in the Abstract, Introduction, and Methods. These sections should have stated that participants had a greater than or equal to 30 pack-year smoking history. This article has been corrected.1
