Correction

Error in Table 2 and Supplement

In the Original Investigation titled "Association of Deepwater Horizon Oil Spill Response and Cleanup Work With Risk of Developing Hypertension," published February 23, 2022, the same error appeared in both Table 2 and eTable 1 in the Supplement. In both tables, the row "Source (1 hr maximum: 177 μg/m³)" incorrectly listed the value for the nonhypertensive group as 46 instead of 446. This article has been corrected.1
