Correction

Errors in Abstract and Figure

In the Original Investigation titled "Current Communication Practices Between Obstetrics and Gynecology Residency Applicants and Program Directors," published October 26, 2022, there was an error in the abstract and in a figure. The total of applicants not reporting their race was fixed to “91 (12.5%) did not indicate race and 17 (2.3%) preferred not to answer.” An error in the color coding for Figure 3 has also been corrected. This article has been corrected.1
