Mission Statement The mission of JAMA Neurology is to publish scientific information primarily important for those physicians caring for people with neurologic disorders but also for those interested in the structure and function of the normal and diseased nervous system. The specific aims are (1) to make timely publication of original research of the nervous system, (2) to record extensive peer review so that originality, clarity, and precision are ensured.

The JAMA Network is a consortium of peer-reviewed print and online medical publications that includes JAMA, JAMA Neurology, and other specialty journals. All articles published, including editorials, letters, and book reviews, represent the opinions of the authors and do not reflect the policy of the American Medical Association, the Editorial Board, or the institution with which the author is affiliated, unless this is clearly specified.
