Critical revision of the manuscript for important intellectual content: All authors. Statistical analysis: Kaufmann, Cazzoli. Obtained funding: Nyffeler, Cazzoli. Administrative, technical, or material support: Cazzoli. Supervision: Nyffeler, Cazzoli.

Conflict of Interest Disclosures: Drs Nyffeler, Kaufmann, and Cazzoli report grants from the Swiss National Science Foundation (grant 320030_169789 to Dr Nyffeler, P2BEP3_195283 to Dr Kaufmann, and ZOOP3_154714/1 to Dr Cazzoli).

Additional Contributions: We thank the patient for granting permission to publish this information and the editor and the reviewers for their helpful comments.

CORRECTION

Title Updated: In the Original Investigation titled “Association of Increased Seizures During Rewarming With Abnormal Neurodevelopmental Outcomes at 2-Year Follow-up,” published in the December 2021 issue of JAMA Neurology, the title was revised to “Association Between Increased Seizures During Rewarming After Hypothermia for Neonatal Hypoxic Ischemic Encephalopathy and Abnormal Neurodevelopmental Outcomes at 2-Year Follow-up.” This article was corrected online.
