JAMA Oncology is committed to publishing influential original research, opinions, and reviews that advance the science of oncology and improve the clinical care of patients with cancer. Mission Statement: JAMA Oncology is the definitive journal for scientists, clinicians, and trainees in the field of oncology worldwide. Our original, innovative, and timely scientific and educational content provides a deeper understanding of cancer pathogenesis and recent treatment advances for our readers. JAMA Oncology aims to effectively convey the findings of important clinical research, major scientific breakthroughs, actionable discoveries, and state-of-the-art treatment pathways to the oncology community. Our goal is that successful communication of new knowledge will ultimately translate to clinical benefit for people living with and curing cancer.

SAMPLE CONTENT

Congratulations to our oncologists, nurses, and all the dedicated healthcare workers who are at the forefront of the fight against cancer.

Thank you for your ongoing efforts in providing hope, care, and support to patients and families. Our thoughts are with you as you continue to navigate these challenging times.

We are reminded of the importance of collaboration and innovation in the oncology field, as we all work together to find new treatments and improve outcomes for patients.

JAMA Oncology is dedicated to highlighting the latest research and developments in the field, and we look forward to continuing to share this information with our readers.

Thank you to all who have contributed to the success of our journal, and to our readers for their continued support.
