JAMA Oncology

JAMA Oncology is committed to publishing influential original research, opinions, and reviews that advance the science of oncology and improve the clinical care of patients with cancer.

Mission Statement
JAMA Oncology is the definitive journal for clinicians, scientists, and trainees in the field of oncology worldwide. Our original, innovative, and timely scientific and educational content provides a deeper understanding of cancer pathogenesis and recent treatment advances for our readers.

JAMA Oncology aims to effectively convey the findings from important clinical research, major scientific breakthroughs, actionable discoveries, and state-of-the-art treatment pathways to the oncology community. Our goal is that successful communication of new knowledge will ultimately translate to clinical benefit for people living with and surviving cancer.
