Conflict of Interest Disclosures: None reported.

Editorial Note: This letter was shown to the corresponding author of the original article, who declined to reply on behalf of the authors.

CORRECTION

Incorrect Information in Text: In the Patient Page entitled “The Misuse of Prescription Pain Medicine Among Children and Teens” published in the May 2015 issue of JAMA Pediatrics (2015;169[5]:512. doi:10.1001/jamapediatrics.2014.2128), incorrect information appeared. In the first sentence of the article, “259 prescriptions for painkillers were written” should be replaced with “259 million prescriptions for painkillers were written.” This article was corrected online.

Error in Abstract: In the Original Investigation entitled “Suicide Trends Among Elementary School-Aged Children in the United States From 1993 to 2012” published online May 18, 2015, in JAMA Pediatrics (doi:10.1001/jamapediatrics.2015.0465), an error appeared in the Abstract. In the first sentence in the Results section of the Abstract, “657 children aged 5 to 11 years” should be replaced with “children aged 5 to 11 years.” This article was corrected online.
