Vision JAMA Pediatrics will be the most respected source of information for investigators, providers, and policy makers seeking the highest quality evidence to guide decision making.

Mission Statement JAMA Pediatrics seeks to provide state-of-the-art information to individuals and organizations working to advance the health and well-being of infants, children, and adolescents. The journal also provides a forum for discussion of the most important issues and policies affecting child and adolescent health and health care. JAMA Pediatrics will use the most current technology to make timely information available to readers wherever and whenever it is needed.
