Author Affiliations: Duke Center for Autism and Brain Development, Department of Psychiatry and Behavioral Sciences, Duke University School of Medicine, Durham, North Carolina.

Corresponding Author: Geraldine Dawson, PhD, Duke Center for Autism and Brain Development, Department of Psychiatry and Behavioral Sciences, Duke University School of Medicine, 2608 Erwin Rd, Ste 300, Durham, NC 27705 (geraldine.dawson@duke.edu).

Published Online: October 31, 2022. doi:10.1001/jamapediatrics.2022.4147

Conflict of Interest Disclosures: Dr Dawson reported grants from the Eunice Kennedy Shriver National Institute of Child Health and Human Development; personal fees for serving on the advisory boards for Janssen, Akili Interactive, LabCorp, Roche Pharmaceutical Co, and Tris Pharma; consulting fees from Zyberna and Apple, Inc; receiving royalties from Guilford Press; and having intellectual property licensed to Cryocell and Apple. Dr Brandsen reported he has received consulting fees from All Neurotypes, LLC. No other disclosures were reported.

CORRECTION

Errors in Abstract and Article: The Original Investigation titled “Utility of the Ages and Stages Questionnaire to Identify Developmental Delay in Children Aged 12 to 60 Months: A Systematic Review and Meta-analysis,” published on August 29, 2022, was corrected to fix typographical errors in the Abstract and article. A sentence in the abstract was updated from “more than 1 domain” to “1 or more domains.” In the article, the abbreviation “BSID” was updated to “Bayley” and text in the Statistical Analysis was also corrected for clarity. The article was corrected online.

Error in Figure 1: In the Original Investigation titled “Incidence of Kawasaki Disease Before and After the COVID-19 Pandemic in Japan: Results of the 26th Nationwide Survey, 2019 to 2020” published online on October 17, 2022, there was a typographical error in Figure 1. The age range listed in the blue axis should be 0 to 59 months. This article was corrected online.
