CORRECTION

Error in Figure Label: In the Original Investigation titled “Proptosis Reduction by Clinical vs Radiological Modalities and Medial vs Inferomedial Approaches: Comparison Following Endoscopic Transnasal Orbital Decompression in Patients With Dysthyroid Orbitopathy,” published online February 5, 2015, in JAMA Otolaryngology-Head & Neck Surgery (doi:10.1001/jamaoto.2014.3659), the label for the second panel of images in Figure 5 should have read “Postoperative frontal and lateral views.” This article was corrected online.

Error in Wording: In the Continued Learning article titled “A Patient With an Allergy Emergency” published online in the February 12, 2015, issue of JAMA Otolaryngology-Head & Neck Surgery (doi:10.1001/jamaoto.2015.8), there was an error in wording in the Evaluation section. The first sentence in the seventh paragraph, which read “The importance of patient history cannot be understated in the workup of a patient with suspected anaphylaxis.” should be replaced with the following sentence: “The importance of patient history cannot be overstated in the workup of a patient with suspected anaphylaxis.” This article was corrected online.
